

Mark Wainwright

My wife Diane and I moved to Collings Lakes in May 2020. Since moving here, I have seen great progress with the dam renovation projects and some very positive change in the community in general.

I manage 2 locations for an agricultural supply company in south Jersey. My responsibilities at work have given me practical experience making decisions in regulatory, financial and personnel affairs.

I had also served on Board for a Brittany Lakes condo community in Mt Laurel in the late 90's.

If elected to the Board, I would use my work experience to help continue the progress in the Collings Lakes Community.
